Bachelor of Science in Information Science
Expected Graduation: December 2026
GPA: 3.78

Relevant Coursework:

Web Technologies (HTML, CSS, JavaScript)
Web Client Applications
Object-Oriented Technology – Python
Object-Oriented Technology – Java
Computer Systems
Applied Networking
Database Concepts
Current Trends in Database Technology
Human Computer Interaction
Information Systems Software – Linux
Ethics in the Profession

Management of Information Resources
Capstone Project I

TECHNICAL SKILLS

Programming & Development:

JavaScript, Python, Java, HTML, CSS, C++, SQL

Data & Analytics:

Microsoft Power BI, DAX, Dashboard Development, Data Visualization, Excel, Reporting & Analytics

Tools & Technologies:

GitHub, GitHub Pages, Chart.js, Polygon.io API, Microsoft Office Suite, PowerPoint, Linux

Professional Skills:

Systems Analysis, Debugging & Testing, Problem Solving, Technical Documentation, Written & Oral Communication, Team Collaboration, Analytical Thinking

PROFESSIONAL EXPERIENCE

Arkansas Blue Cross and Blue Shield

Compliance Systems & Accreditation Intern

May 2025 – August 2025

- Developed and published multiple interactive Microsoft Power BI dashboards to improve enterprise compliance visibility and reporting
- Created visual analytics solutions for State Utilization Review Agent licensure, Medicare Advantage monitoring, URAC reaccreditation, and state legislation tracking
- Leveraged Power BI and data analysis techniques to automate tracking of regulatory filings, licensure deadlines, audit standards, and accreditation evidence submissions
- Built dashboards with dynamic visuals, filters, and progress tracking features supporting executive decision-making and workflow visibility
- Assisted with systems analysis, troubleshooting, reporting enhancements, and documentation of enterprise compliance processes
- Demonstrated initiative and technical communication skills while presenting analytics solutions to corporate leadership

Arkansas Christian Academy
Maintenance Technician
Jan 2023 – May 2025

- Performed facility maintenance and technical support across campus buildings
- Worked independently to troubleshoot issues and complete scheduled operational tasks
- Demonstrated reliability, communication, and time management skills in a team-oriented environment

Meinco Wastewater
Lead Service Technician
Jan 2018 – Jan 2023 – Currently Work here after internship

- Managed service calls, equipment installations, and field troubleshooting operations
- Supervised junior technicians and maintained safety and operational standards
- Developed strong problem-solving, leadership, and customer communication skills in fast-paced environments

PROJECTS

UV Exposure Tracking Tool

- Developed a web-based application designed to display UV index information across the United States
- Created responsive user interfaces and interactive web components using HTML, CSS, and JavaScript
- Focused on healthcare-oriented data presentation, usability, and visual design

Currency Value History Application

- Built a foreign exchange tracking application utilizing Polygon.io API and Chart.js
- Implemented historical currency trend analysis and interactive data visualizations
- Developed using JavaScript, APIs, HTML, and CSS

Personal Portfolio Website

- Designed and deployed a responsive portfolio website using GitHub Pages
- Showcased web development projects, coursework, technical skills, and application examples
- Implemented custom UI styling, navigation systems, and responsive layouts
